

BatchMaster ERP for Polyurethane

Provides solidity & rigidity to your business

The rising demand of polyurethanes for numerous applications such as footwear, appliances, CASE applications, furniture & bedding, automotive, construction & building, etc., is keeping the polyurethane industry in a good stead. But with this growing demand, there is an increased need for the manufacturers to focus on creating polyurethane formulations that make products more able to fit into varied applications. Then there's constant pressure to develop new and innovative polyurethane products that are not only high quality, greener products, but also available at a reasonable cost. Rigorous R&D and compliance with regulatory mandates too is the need of the hour.

To sustain and flourish in such times, the polyurethane manufacturers need an ERP partner to take care of their business needs. With 30-plus years of industry expertise, BatchMaster ERP for Polyurethane perfectly fits the bill. Its robust features help manufacturers meet their varied business needs such as quality control, real-time view of core business processes, development of new products at a faster rate, advanced planning for raw material availability, lot tracking of materials from start to finish, on-time delivery of the finished products, et al.

Check out below the full list of the powerful features of BatchMaster ERP for Polyurethane:

- Formula-centric design for comparison, material substitution, and product escalation
- Formula security to support authorised access
- Supports OSHA, WCED, ISO, LCA, ISTM compliance requirements

Products:

BatchMaster ERP

Our Flagship product, BatchMaster ERP, is a true process-centric solution serving the manufacturing, distribution, finance, compliance and quality needs of your business.

BatchMaster Point-Of-Sales (POS)

A web-based software solution for wholesale, distribution, and retail businesses, it can be used online on iPads, Android tablets or laptops. By syncing the complete information of products, customers, and orders into a single platform, it makes it easy to scan products, check for inventory, apply discounts or offers, and accept payments both in plastic money as well as in cash. Ultimately, helping retailers improve customer service, increase productivity, reduce thefts and offer better retail experience.

Integration with MAGENTO:

Integration of BatchMaster Enterprise with Magento helps manage your business online. The integration provides a seamless method to completely collaborate your ERP system with your current or upcoming Magento stores. Via this integration, orders from your Magento store and website will automatically be loaded into the BatchMaster Enterprise ERP solution – along with an alert about order arrival. It enables complete synchronization of item records, price lists, inventory, taxes, business partners, orders, deliveries, shipping & tracking, and payments.
